Preliminary FEMA Map Products

Disclaimer: Preliminary data are for review and guidance purposes only. By viewing preliminary data and maps, the user acknowledges that the information provided is preliminary and subject to change. Preliminary data, including new or revised FIRMs, FIS reports, and FIRM Databases, are not final and are presented on the MSC as the best information available at this time. Additionally, preliminary data cannot be used to rate flood insurance policies or enforce the Federal mandatory purchase requirement. FEMA will remove preliminary data once the Letter of Final Determination has been mailed to communities, approximately 6 months before the final mapping products take effect.

For more information on what these three types of data entail, visit FEMA's [Preliminary Flood Hazard Data](#) webpage.
